# Genesis TP-502

## New Generation Machine

TP-502 Genesis is a new generation semi-auto strapping machine. It uses direct drive technology with German-made DC motors which ensures high reliability and durability of the machine. Its compact design greatly minimizes the numbers of moving parts, requires fewer adjustments, less maintenance, and has fewer wear components.

## Main Features

### Compact Mechanical Strapping Head

With 30% less moving parts than conventional machines substantially reduces maintenance issues. There are no belts, chains, or pulleys. Extremely low noise sealing head.

### Electronic Tension Control

Adjustment for strap tension (8 - 45 kg) can be easily done on the front control panel.

### Jog Switch

Using the "Jog switch" to adjust the machine to exactly the correct position for maintenance.

### Adjustable Weld-Cooling Time

The weld cooling time can be increased to ensure high joint efficiency under high tension.

## Option

- Safety switch under the table top
